THE TJX COMPANIES, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note A. Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation

The Consolidated Financial Statements and Notes thereto have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information. These Consolidated Financial Statements and Notes thereto are unaudited and, in the opinion of management, reflect all normal recurring adjustments, accruals and deferrals among periods required to match costs properly with the related revenue or activity, considered necessary by The TJX Companies, Inc. (together with its subsidiaries, "TJX") for a fair statement of its Consolidated Financial Statements for the periods reported, all in conformity with GAAP consistently applied. All intercompany transactions have been eliminated in consolidation. Investments for which the Company exercises significant influence but does not have control are accounted for under the equity method. The Consolidated Financial Statements and Notes thereto should be read in conjunction with the audited Consolidated Financial Statements, including the related notes, contained in TJX's Annual Report on Form 10-K for the fiscal year ended February 1, 2025 ("fiscal 2025").

These interim results are not necessarily indicative of results for the full fiscal year. TJX's business, in common with the businesses of retailers generally, is subject to seasonal influences, with higher levels of sales and income generally realized in the second half of the year.

The February 1, 2025 balance sheet data was derived from audited Consolidated Financial Statements and does not include all disclosures required by GAAP.

Fiscal Year

TJX's fiscal year ends on the Saturday nearest to the last day of January of each year. The current fiscal year ends January 31, 2026 ("fiscal 2026") and is a 52-week fiscal year. Fiscal 2025 was a 52-week fiscal year. "Fiscal 2027" and "fiscal 2028" will both be 52-week fiscal years and will end January 30, 2027 and January 29, 2028, respectively.

Use of Estimates

The preparation of financial statements, in conformity with GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements as well as the reported amounts of revenues and expenses during the reporting period. TJX considers its accounting policies relating to inventory valuation, reserves for uncertain tax positions and loss contingencies to be the most significant accounting policies that involve management estimates and judgments. Actual amounts could differ from these estimates, and such differences could be material.

Deferred Gift Card Revenue

The following table presents deferred gift card revenue activity:

In millions	November 1, 2025		November 2, 2024	
Balance, beginning of year	\$	824 \$	773	
Deferred revenue		1,294	1,315	
Effect of exchange rate changes on deferred revenue		7	(2)	
Revenue recognized		(1,353)	(1,371)	
Balance, end of period	\$	772 \$	715	

TJX recognized \$433 million in gift card revenue for the three months ended November 1, 2025 and \$431 million for the three months ended November 2, 2024. Gift cards are combined in one homogeneous pool and are not separately identifiable. As such, the revenue recognized consists of gift cards that were part of the deferred revenue balance at the beginning of the period as well as gift cards that were issued during the period.

Equity Investments

Multibrand Outlet Stores

During fiscal 2025, the Company completed an investment for a 49% ownership stake in Multibrand Outlet Stores S.A.P.I. de C.V. ("MOS"), through a joint venture with Grupo Axo, S.A.P.I de C.V. ("Axo"). MOS is Axo's off-price, physical store business in Mexico and includes a total of over 200 stores for its Promoda, Reduced, and Urban Store banners. TJX has the option to increase its ownership interest in the joint venture over the long term. TJX completed this investment for \$193 million, inclusive of acquisition costs, during the third quarter of fiscal 2025.

For the nine months ended November 1, 2025, the carrying value of the Company's equity investment in MOS was \$193 million, which exceeds its share of MOS' net assets by approximately \$154 million. This difference primarily consists of goodwill and tradenames. Tradenames are definite-lived intangible assets and are amortized straight-line over their useful lives of 10 years. The carrying value of this equity investment is adjusted for the Company's share of MOS's results, tradename amortization, cumulative translation adjustments and additional capital contributions. The cumulative translation adjustment is recorded in the Consolidated Balance Sheets as a component of Accumulated other comprehensive (loss) income.

Brands for Less

During fiscal 2025, the Company completed an investment for a 35% ownership stake in privately held Brands for Less ("BFL"), representing a non-controlling, minority position. BFL currently operates over 100 stores, primarily in the UAE and Saudi Arabia, as well as an e-commerce business, and is the region's only major off-price branded apparel, toys and home fashions retailer. TJX completed this investment for \$358 million, inclusive of acquisition costs, during the fourth quarter of fiscal 2025.

For the nine months ended November 1, 2025, the carrying value of the Company's equity investment in BFL was \$335 million, which exceeds its share of BFL net assets by approximately \$291 million. This difference primarily consists of goodwill and a tradename. The tradename is a definite-lived intangible asset and will be amortized straight-line over the useful life of 15 years. The carrying value of this equity investment is adjusted for the Company's share of BFL's results and tradename amortization.

Both investments are accounted for under the equity method of accounting and are recorded in Other assets on the Consolidated Balance Sheets. TJX reports the results of its share of the investments in MOS and BFL on a one-quarter lag, as their results are not expected to be available in time to be recorded in the concurrent period. Earnings from the investments in MOS and BFL are recorded in Selling, general & administrative expenses on the Consolidated Statements of Income. The earnings from these investments did not have a material impact on the Company's results for the nine months ended November 1, 2025.

Additionally, both equity investments are evaluated for indicators of impairment on a periodic basis or whenever events or circumstances indicate the carrying amount may be other-than-temporarily impaired. If the Company concludes that there is an other-than-temporary impairment of these equity investments, it will adjust the carrying amount of the investments to the current fair value. As of November 1, 2025, the Company determined that no impairments of its equity method investments existed.

Leases

Supplemental cash flow information related to leases is as follows:

	Thirty-Nine Weeks Ended						
In millions	November 1, 2025						
Operating cash flows paid for operating leases	\$	1,649	\$	1,575			
Lease liabilities arising from obtaining right of use assets	\$	1,590	\$	1,503			

Future Adoption of New Accounting Standards

From time to time, the Financial Accounting Standards Board ("FASB") or other standard setting bodies issue new accounting pronouncements. Updates to the FASB Accounting Standards Codification are communicated through issuance of an Accounting Standards Update ("ASU"). Unless otherwise discussed, the Company has reviewed the new guidance and has determined that it will either not apply to TJX or is not expected to be material to its Consolidated Financial Statements upon adoption, and, therefore, the guidance is not disclosed.

Improvements to Income Tax Disclosures

In December 2023, the FASB issued guidance related to improvements to income tax disclosures. The new standard updates the income tax disclosure related to the rate reconciliation and requires disclosure of income taxes paid by jurisdiction. The standard also provides for further disclosure comparability. The standard is effective for fiscal years beginning after December 15, 2024, with early adoption permitted. The Company will adopt this standard for the fiscal 2026 Form 10-K and is currently evaluating the impact of the adoption of this standard on its consolidated financial statement disclosures.

Disaggregation of Income Statement Expenses

In November 2024, the FASB issued new guidance to enhance the disclosure of expenses by requiring further disaggregation of relevant expenses in a separate note to the financial statements. This standard is effective for fiscal years beginning after December 15, 2026, and for interim periods within fiscal years beginning after December 15, 2027, with early adoption permitted. The Company is currently evaluating the impact of this adoption on its consolidated financial statement disclosures and plans to adopt this standard for the fiscal 2028 Form 10-K.

Improvements to Accounting for Internal-Use Software

In September 2025, the FASB issued new guidance to modernize the accounting for internal-use software costs by increasing the operability of the recognition guidance considering different methods of software development. This standard is effective for fiscal years beginning after December 15, 2027, and for interim periods within those fiscal years, with early adoption permitted. The Company is currently evaluating the impact of the adoption on its consolidated financial statement disclosures and plans to adopt this standard for annual reporting as well as interim period reporting beginning in fiscal year 2029.

SEC Rule Changes

In March 2024, the SEC adopted new rules phasing in for fiscal years beginning on or after January 1, 2025 that will require registrants to provide certain climate-related information in their registration statements and annual reports. In April 2024, the SEC determined to voluntarily stay the final rules pending certain legal challenges. In March 2025, the SEC withdrew its defense of the rules in the pending litigation and, in July 2025, filed a status report requesting that the U.S. Court of Appeals for the Eighth Circuit (the "Eighth Circuit") proceed with the case and issue an opinion on the challenges to the rules. In September 2025, the Eighth Circuit denied the SEC's request to proceed with the case and issued an order staying the litigation until the SEC either renews its defense of the rules or revised the rules via notice-and-comment rulemaking. The Company is continuing to monitor the status.

Recently Adopted Accounting Standards

Improvements to Reportable Segment Disclosures

In November 2023, the FASB issued guidance related to improvements to reportable segment disclosures. The new standard improves financial reporting by requiring disclosure of incremental segment information on an annual and interim basis to enable investors to develop more decision-useful financial analyses. The Company adopted this standard as of February 1, 2025, on a retrospective basis. Refer to Note G—Segment Information for the impact upon adoption of the new required disclosures.

Note B. Property at Cost

The following table presents the components of property at cost:

In millions	No	ovember 1, 2025	February 1, 2025	November 2, 2024
Land and buildings	\$	2,681	\$ 2,558	\$ 2,436
Leasehold costs and improvements		5,263	4,710	4,670
Furniture, fixtures and equipment		9,275	8,714	8,540
Total property at cost	\$	17,219	\$ 15,982	\$ 15,646
Less: accumulated depreciation and amortization		9,293	8,636	8,510
Net property at cost	\$	7,926	\$ 7,346	\$ 7,136

Depreciation expense was \$315 million and \$265 million for the three months ended November 1, 2025 and November 2, 2024, respectively. Depreciation expense was \$917 million and \$791 million for the nine months ended November 1, 2025 and November 2, 2024, respectively.

Non-cash investing activities consist of accrued capital additions of \$185 million and \$199 million as of the periods ended November 1, 2025 and November 2, 2024, respectively.

Note C. Accumulated Other Comprehensive (Loss) Income

Amounts included in Accumulated other comprehensive (loss) income are recorded net of taxes. The following table details the changes in Accumulated other comprehensive (loss) income for the twelve months ended February 1, 2025 and the nine months ended November 1, 2025:

In millions and net of immaterial taxes	Cu	oreign rrency islation	Deferred Benefit Costs	Accumulated Other Comprehensive (Loss) Income

Note D. Capital Stock and Earnings Per Share

Capital Stock

In February 2025, the Company announced that its Board of Directors had approved a new stock repurchase program that authorizes the repurchase of up to an additional \$2.5 billion of TJX common stock from time to time. Under this program, TJX had approximately \$1.9 billion available for repurchase as of November 1, 2025.

The following table provides share repurchases, excluding applicable excise tax:

	Tl	hirteen We	eeks Ended	Thirty-Nine Weeks Ended				
In millions		mber 1, 025	November 2, 2024	November 1, 2025	November 2, 2024			
Total number of shares repurchased and retired		4.2	5.0	13.4	15.4			
Total cost	\$	594	\$ 574	\$ 1,722	\$ 1,642			

All shares repurchased under the stock repurchase programs have been retired. These expenditures were funded by cash on hand and cash generated from operations.

Earnings Per Share

The following table presents the calculation of basic and diluted earnings per share:

		Thirteen W	eeks Ended	7	Thirty-Nine Weeks Ended				
Amounts in millions, except per share amounts	No	vember 1, 2025	November 2, 2024	No	ovember 1, 2025	November 2, 2024			
Basic earnings per share:									
Net income	\$	1,442	\$ 1,297	\$	3,721	\$ 3,466			
Weighted average common shares outstanding for basic earnings per share calculation		1,112	1,127		1,115	1,130			
Basic earnings per share	\$	1.30	\$ 1.15	\$	3.34	\$ 3.07			
Diluted earnings per share:									
Net income	\$	1,442	\$ 1,297	\$	3,721	\$ 3,466			
Weighted average common shares outstanding for basic earnings per share calculation		1,112	1,127		1,115	1,130			
Assumed exercise/vesting of stock options and awards		14	14		14	14			
Weighted average common shares outstanding for diluted earnings per share calculation		1,126	1,141		1,129	1,144			
Diluted earnings per share	\$	1.28	\$ 1.14	\$	3.30	\$ 3.03			
Cash dividends declared per share	\$	0.425	\$ 0.375	\$	1.275	\$ 1.125			

The weighted average common shares for the diluted earnings per share calculation excludes the impact of outstanding stock options if the assumed proceeds per share of the option is in excess of the average price of TJX's common stock for the related fiscal periods. Such options are excluded because they would have an antidilutive effect. There were 3 million antidilutive options excluded for the thirteen weeks and thirty-nine weeks ended November 1, 2025 and 4 million antidilutive options excluded for the thirteen weeks and thirty-nine weeks ended November 2, 2024.

Note E. Financial Instruments

As a result of its operating and financing activities, TJX is exposed to market risks from changes in interest and foreign currency exchange rates and fuel costs. These market risks may adversely affect TJX's operating results and financial position. TJX seeks to minimize risk from changes in interest and foreign currency exchange rates and fuel costs through the use of derivative financial instruments when and to the extent deemed appropriate. TJX does not use derivative financial instruments for trading or other speculative purposes and does not use any leveraged derivative financial instruments. TJX recognizes all derivative instruments as either assets or liabilities in the Consolidated Balance Sheet and measures those instruments at fair value. The fair values of the derivatives are classified as assets or liabilities, current or non-current, based upon valuation results and settlement dates of the individual contracts. Changes to the fair value of derivative contracts that do not qualify for hedge accounting are reported in earnings in the period of the change. For derivatives that qualify for hedge accounting, changes in the fair value of the derivatives are either recorded in shareholders' equity as a component of Accumulated other comprehensive (loss) income or are recognized currently in earnings, along with an offsetting adjustment against the basis of the item being hedged. Gains and losses on derivative instruments are reported in the Consolidated Statements of Cash Flows in operating activities, under Other, net.

Diesel Fuel Contracts

TJX hedges portions of its estimated notional diesel fuel requirements based on the diesel fuel expected to be consumed by independent freight carriers transporting TJX's inventory. Independent freight carriers transporting TJX's inventory charge TJX a mileage surcharge based on the price of diesel fuel. The hedge agreements are designed to mitigate the volatility of diesel fuel pricing, and the resulting per mile surcharges payable by TJX, by setting a fixed price per gallon for the period being hedged. During fiscal 2025, TJX entered into agreements to hedge a portion of its estimated notional diesel fuel requirements for fiscal 2026, and during the first nine months of fiscal 2026, TJX entered into agreements to hedge a portion of its estimated notional diesel fuel requirements for the first nine months of fiscal 2027. The hedge agreements outstanding at November 1, 2025 relate to approximately 50% of TJX's estimated notional diesel fuel requirements for the remainder of fiscal 2026 and the first nine months of fiscal 2027. These diesel fuel hedge agreements will settle throughout fiscal 2026 and throughout the first ten months of fiscal 2027. Upon settlement, the realized gains and losses on these contracts are recorded in Cost of sales, including buying and occupancy costs. TJX elected not to apply hedge accounting to these contracts.

Foreign Currency Contracts

TJX enters into forward foreign currency exchange contracts to obtain economic hedges on portions of merchandise purchases made and anticipated to be made by the Company's operations in currencies other than their respective functional currencies. The contracts outstanding at November 1, 2025 cover merchandise purchases the Company is committed to over the next several months in fiscal 2026. Additionally, TJX's operations in Europe are subject to foreign currency exposure as a result of their U.K. centralized buying function. Merchandise is purchased centrally in the U.K. and then shipped and billed to the retail entities in other countries. This intercompany billing to TJX's European businesses' Euro denominated operations creates exposure to the central buying entity for changes in the exchange rate between the Euro and British Pound. A portion of the inflows of Euros to the central buying entity provides a natural hedge for Euro denominated merchandise purchases from third-party vendors. TJX calculates any excess Euro exposure each month and enters into forward contracts of approximately 30 days' duration to mitigate this excess exposure. Upon settlement, the realized gains and losses on these contracts are recorded in Cost of sales, including buying and occupancy costs. TJX elected not to apply hedge accounting to these contracts.

TJX also enters into derivative contracts, generally designated as fair value hedges, to hedge intercompany debt. The changes in fair value of these contracts are recorded in Selling, general and administrative expenses and are offset by marking the underlying item to fair value in the same period. Upon settlement, the realized gains and losses on these contracts are offset by the realized gains and losses of the underlying item in Selling, general and administrative expenses.

Note F. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (also referred to as exit price). The inputs used to measure fair value are generally classified into the following hierarchy:

- Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities
- Level 2: Unadjusted quoted prices in active markets for similar assets or liabilities, or unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability
- Level 3: Unobservable inputs for the asset or liability

The following table sets forth TJX's financial assets and liabilities that are accounted for at fair value on a recurring basis:

In millions		vember 1, 2025	F	ebruary 1, 2025	N	November 2, 2024
Level 1						
Assets:						
Executive Savings Plan investments	\$	545.5	\$	481.4	\$	465.8
Level 2						
Assets:						
Foreign currency exchange contracts	\$	29.7	\$	53.1	\$	23.6
Diesel fuel contracts		2.8		_		_
Liabilities:						
Foreign currency exchange contracts	\$	18.6	\$	9.0	\$	8.7
Diesel fuel contracts		_		9.1		16.3

Investments designed to meet obligations under the Executive Savings Plan are invested in registered investment companies traded in active markets and are recorded at unadjusted quoted prices.

Foreign currency exchange contracts and diesel fuel contracts are valued using broker quotations, which include observable market information. TJX does not make adjustments to quotes or prices obtained from brokers or pricing services but does assess the credit risk of counterparties and will adjust final valuations when appropriate. Where independent pricing services provide fair values, TJX obtains an understanding of the methods used in pricing. As such, these instruments are classified within Level 2.

The fair value of TJX's general corporate debt was estimated by obtaining market quotes given the trading levels of other bonds of the same general issuer type and market perceived credit quality. These inputs are considered to be Level 2 inputs. These estimates do not necessarily reflect provisions or restrictions in the various debt agreements that might affect TJX's ability to settle these obligations.

The following table summarizes the carrying value and fair value estimates of the Company's components of long-term debt:

	 November 1, 2025				February 1, 2025				November 2, 2024		
In millions	Carrying Value Fair Value			Carrying Value	Fair Value		Carrying Value		Fai	r Value	
Level 2											
Current portion of long-term debt	\$ 999	\$	986	\$	_	\$		\$		\$	
Long-term debt	\$ 1,870	\$	1,742	\$	2,866	\$	2,634	\$	2,865	\$	2,640

For additional information on long-term debt, see Note I—Long-Term Debt and Credit Lines.

TJX's cash equivalents are stated at cost, which approximates fair value due to the short maturities of these instruments.

The majority of the Company's assets and liabilities are not measured at fair value on an ongoing basis. Certain assets and liabilities are measured at fair value on a nonrecurring basis and are subject to fair value adjustments in certain circumstances, such as when there is evidence of an impairment. For the periods ended November 1, 2025, February 1, 2025 and November 2, 2024, the Company did not record any material impairments to long-lived assets.

Note G. Segment Information

TJX operates four segments. TJX defines its segments as those operations whose results the Chief Executive Officer, who is the Company's chief operating decision maker ("CODM"), regularly reviews to analyze performance and allocate resources. In the United States, the Marmaxx segment operates TJ Maxx, Marshalls, tjmaxx.com and marshalls.com and the HomeGoods segment operates HomeGoods and Homesense. The TJX Canada segment operates Winners, HomeSense and Marshalls in Canada, and the TJX International segment operates TK Maxx, Homesense, tkmaxx.com, tkmaxx.de, and tkmaxx.at in Europe and TK Maxx in Australia. In addition to the Company's four segments, Sierra operates retail stores and sierra.com in the U.S. The results of Sierra are included in the Marmaxx segment.

All of TJX's stores, with the exception of HomeGoods and HomeSense/Homesense, sell family apparel and home fashions. HomeGoods and HomeSense/Homesense offer home fashions.

The CODM regularly reviews net sales by segment and segment profit or loss. There are no significant expense categories or amounts regularly provided to the CODM and included in reported segment profit or loss. As such, no significant expense categories are disclosed in the table below. The CODM evaluates the performance of the Company's segments based on "segment profit or loss," which it defines as pre-tax income or loss before general corporate expense, interest (income) expense, net and certain separately disclosed unusual or infrequent items. "Segment profit or loss," as defined by TJX, may not be comparable to similarly titled measures used by other entities. This measure of performance should not be considered an alternative to net income or cash flows from operating activities as an indicator of TJX's performance or as a measure of liquidity.

Presented below is financial information with respect to TJX's segments:

⁽a) Segment expenses for each reportable segment include cost of sales and selling, general and administrative expenses. Cost of sales includes buying and occupancy costs, cost of merchandise sold, and other expenses. Selling, general and administrative expenses include store payroll and benefit costs, communication costs, and other expenses. Refer to Note A - Basis of Presentation and Summary of Accounting Policies of Notes to Consolidated Financial Statements included in TJX's Annual Report on Form 10-K for the fiscal year ended February 1, 2025 for more information on the classifications.

The following table presents identifiable assets by segment:

In millions	No	vember 1, 2025	February 1, 2025	N	ovember 2, 2024

Note H. Pension Plans and Other Retirement Benefits

Presented below is financial information relating to TJX's funded defined benefit pension plan ("qualified pension plan" or "funded plan") and its unfunded supplemental pension plan ("unfunded plan") for the periods shown:

	Funde	ed Plan	Unfunded Plan					
	Thirteen W	Veeks Ended	Thirteen W	eeks Ended				
In millions	November 1, 2025	November 2, 2024	November 1, 2025	November 2, 2024				
Service cost	\$ 7	\$ 8	\$ 1	\$ 1				
Interest cost	19	17	2	1				
Expected return on plan assets	(22)	(21)	<u> </u>	_				
Amortization of net actuarial loss and prior service credit	(0)	(0)	1	0				
Total expense	\$ 4	\$ 4	\$ 4	\$ 2				

	I	unde	d Plan	Unfund	ded Plan
	Thirty-	Nine V	Weeks Ended	Thirty-Nine	Weeks Ended
In millions	November 2025	r 1,	November 2, 2024	November 1, 2025	November 2, 2024
Service cost	\$	22	\$ 24	\$ 2	\$ 2
Interest cost		57	53	5	4
Expected return on plan assets		(66)	(60)	<u> </u>	
Amortization of net actuarial loss and prior service credit		(1)	(1)	1	1
Total expense	\$	12	\$ 16	\$ 8	\$ 7

TJX's policy with respect to the funded plan is to fund, at a minimum, the amount required to maintain a funded status of 80% of the applicable pension liability (the Funding Target pursuant to the Internal Revenue Code section 430) or such other amount as is sufficient to avoid restrictions with respect to the funding of nonqualified plans under the Internal Revenue Code. The Company does not anticipate any required funding in fiscal 2026 for the funded plan. The Company anticipates making contributions of \$8 million to provide current benefits coming due under the unfunded plan in fiscal 2026.

The amounts included in Amortization of net actuarial loss and prior service credit in the table above have been reclassified in their entirety from Accumulated other comprehensive (loss) income to the Consolidated Statements of Income, net of related tax effects, for the periods presented.

Note I. Long-Term Debt and Credit Lines

The table below presents long-term debt as of November 1, 2025, February 1, 2025 and November 2, 2024. All amounts are net of unamortized debt discounts.

In millions and net of immaterial unamortized debt discounts			February 1, 2025	November 2, 2024
General corporate debt:				
2.250% senior unsecured notes, maturing September 15, 2026 (effective interest rate of 2.32% after reduction of unamortized debt discount)	\$	999	\$ 998	\$ 998
1.150% senior unsecured notes, maturing May 15, 2028 (effective interest rate of 1.18% after reduction of unamortized debt discount)		500	500	500
3.875% senior unsecured notes, maturing April 15, 2030 (effective interest rate of 3.89% after reduction of unamortized debt discount)		496	496	496
1.600% senior unsecured notes, maturing May 15, 2031 (effective interest rate of 1.61% after reduction of unamortized debt discount)		500	500	500
4.500% senior unsecured notes, maturing April 15, 2050 (effective interest rate of 4.52% after reduction of unamortized debt discount)		383	383	383
Total debt		2,878	2,877	2,877
Current maturities of long-term debt, net of debt issuance costs		(999)		_
Debt issuance costs		(9)	(11)	(12)
Long-term debt	\$	1,870	\$ 2,866	\$ 2,865

Credit Facilities

As of November 1, 2025, TJX has two revolving credit facilities, a \$750 million revolving credit facility maturing in May 2029 (the "2029 Revolving Credit Facility") and a \$750 million senior unsecured revolving credit facility maturing in May 2030 (the "2030 Revolving Credit Facility").

On May 9, 2025, the Company amended and restated its \$500 million revolving credit facility (as amended, the 2029 Revolving Credit Facility) to (i) extend the maturity to May 9, 2029 and (ii) increase the aggregate principal amount commitment to \$750 million. All other material terms and conditions of the 2029 Revolving Credit Facility were unchanged.

Additionally, on May 9, 2025, the Company amended and restated its \$1 billion revolving credit facility (as amended, the 2030 Revolving Credit Facility) to (i) extend the maturity to May 9, 2030, (ii) decrease the aggregate principal amount of commitments to \$750 million and (iii) reduce the interest rate margin applicable to borrowings bearing interest at a term secured overnight financing rate to a margin of 45.0 - 87.5 basis points consistent with the 2029 Revolving Credit Facility. All other material terms and conditions of the 2030 Revolving Credit Facility were unchanged.

Under these credit facilities, the Company has maintained a borrowing capacity of \$1.5 billion. As of November 1, 2025, February 1, 2025 and November 2, 2024, and during the quarters and year then ended, there were no amounts outstanding under these facilities. TJX was in compliance with all covenants related to its credit facilities at the end of all periods presented.

Note J. Income Taxes

On July 4, 2025, the One Big Beautiful Bill Act was signed into law, making permanent certain expiring provisions of the Tax Cuts and Jobs Act, including 100% accelerated depreciation deductions on qualified property and immediate expensing of domestic research and development costs, as well as modifying some of the international tax rules. These changes have not had a material impact for either the third quarter or the first nine months of fiscal 2026.

A number of countries have enacted legislation to implement the Organization for Economic Cooperation and Development's 15% global minimum tax regime (Pillar Two) with effect from January 1, 2024. These changes did not have a material impact on our effective tax rate, results of operations or financial position for the third quarter of fiscal 2026 and are not expected to have a significant impact to the full fiscal year. We continue to evaluate the impacts of proposed and enacted legislation for the jurisdictions in which TJX operates.

The effective income tax rate was 24.7% for the third quarter of fiscal 2026 and 25.3% for the third quarter of fiscal 2025. The effective income tax rate was 24.2% for the first nine months of fiscal 2026 and 24.6% for the first nine months of fiscal 2025. The decrease in the effective income tax rate for both the third quarter and first nine months of fiscal 2026 was primarily due to the increase in an excess tax benefit from share-based compensation and a benefit from the acquisition of federal tax credits, partially offset by incremental taxes related to international operations.

TJX had net unrecognized tax benefits of \$216 million as of November 1, 2025, \$217 million as of February 1, 2025 and \$203 million as of November 2, 2024.

TJX is subject to U.S. federal income tax as well as income tax in multiple state, local and foreign jurisdictions. In the U.S. and India, fiscal years through 2010 are no longer subject to examination. In all other jurisdictions, fiscal years through 2011 are no longer subject to examination.

TJX's accounting policy is to classify interest and penalties related to income tax matters as part of income tax expense. The accrued amounts for interest and penalties on the Consolidated Balance Sheets were \$25 million as of November 1, 2025, \$28 million as of February 1, 2025 and \$27 million as of November 2, 2024.

Based on the final resolution of tax examinations, judicial or administrative proceedings, changes in facts or law, expirations of statutes of limitations in specific jurisdictions or other resolutions of, or changes in, tax positions, it is reasonably possible that unrecognized tax benefits for certain tax positions taken on previously filed tax returns may change materially from those represented on the Consolidated Financial Statements as of November 1, 2025. During the next twelve months, it is reasonably possible that tax audit resolutions may reduce unrecognized tax benefits by up to \$28 million, which would reduce the provision for taxes on earnings.

Note K. Contingent Obligations, Contingencies, and Commitments

Contingent Contractual Obligations

TJX is a party to various agreements under which it may be obligated to indemnify the other party with respect to certain losses related to matters including title to assets sold, specified environmental matters or certain income taxes. These obligations are sometimes limited in time or amount. There are no amounts reflected in the Company's Consolidated Balance Sheets with respect to these contingent obligations.

Legal Contingencies

TJX is subject to certain legal proceedings, lawsuits, disputes and claims that arise from time to time in the ordinary course of its business. TJX has accrued immaterial amounts in the accompanying Consolidated Financial Statements for certain of its legal proceedings.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The Thirteen Weeks (third quarter) and Thirty-Nine Weeks (nine months) Ended November 1, 2025 Compared to

The Thirteen Weeks (third quarter) and Thirty-Nine Weeks (nine months) Ended November 2, 2024

OVERVIEW

We are the leading off-price apparel and home fashions retailer in the U.S. and worldwide. Our mission is to deliver great value to our customers every day. We do this by selling a rapidly changing assortment of apparel, home fashions and other merchandise at prices generally 20% to 60% below full-price retailers' (including department, specialty and major online retailers) regular prices on comparable merchandise, every day through our stores and six e-commerce sites. We operate nearly 5,200 stores through our four segments: in the U.S., Marmaxx (which operates TJ Maxx, Marshalls, tjmaxx.com and marshalls.com) and HomeGoods (which operates HomeGoods and Homesense); TJX Canada (which operates Winners, HomeSense and Marshalls in Canada); and TJX International (which operates TK Maxx, Homesense, tkmaxx.com, tkmaxx.de, and tkmaxx.at in Europe, and TK Maxx in Australia). In addition to our four segments, Sierra operates retail stores and sierra.com in the U.S. The results of Sierra are included in the Marmaxx segment.

RESULTS OF OPERATIONS

As an overview of our financial performance, results for the quarter ended November 1, 2025 include the following:

- Net sales increased 7% to \$15.1 billion for the third quarter of fiscal 2026 versus last year's third quarter sales of \$14.1 billion. As of November 1, 2025, the number of stores in operation increased approximately 3% and the selling square footage increased approximately 2% compared to the end of the third quarter of fiscal 2025.
- Consolidated comp sales increased 5% for the third quarter of fiscal 2026. See Net Sales below for our definition of comp sales.
- Diluted earnings per share for the third quarter of fiscal 2026 were \$1.28 versus \$1.14 in the third quarter of fiscal 2025
- Pre-tax profit margin (the ratio of pre-tax income to net sales) for the third quarter of fiscal 2026 was 12.7%, a 0.4 percentage point increase compared with 12.3% in the third quarter of fiscal 2025.
- Our cost of sales, including buying and occupancy costs, ratio for the third quarter of fiscal 2026 was 67.4%, a 1.0 percentage point decrease compared with 68.4% in the third quarter of fiscal 2025.
- Our selling, general and administrative ("SG&A") expense ratio for the third quarter of fiscal 2026 was 20.1%, a 0.6 percentage point increase compared with 19.5% in the third quarter of fiscal 2025.
- Our consolidated average per store inventories, including inventory on hand at our distribution centers (which excludes inventory in transit) and excluding our e-commerce sites, were up 8% at the end of the third quarter of fiscal 2026 compared to the third quarter of fiscal 2025. Starting in the first quarter of fiscal 2026, Sierra stores are included in the consolidated average per store inventories.
- During the third quarter of fiscal 2026, we returned \$1.1 billion to our shareholders through share repurchases and dividends.

Recent Events and Trends

Global Economic Conditions and Tariffs

We continue to closely monitor changes in international trade relations, economic and monetary policies, and legislation and regulations including those related to tariffs on imports from China and other countries. While we have been, and believe we can continue to be, successful in mitigating tariff pressures, tariffs have led to significant volatility in the global economy. The extent and duration of the tariffs and the resulting impact on general economic conditions and on our business continues to be uncertain. Our buying organization's ability to execute our merchandise sourcing model to offset the effects of the tariffs is a key factor. We are continuing to implement and consider additional measures that seek to mitigate the impact of tariffs. However, the overall impact depends on a range of factors, including trade negotiations between the U.S. and other countries, responses of other countries, exceptions that could be granted, and cost of alternative sources of merchandise. It is possible that some of the actions we might take to adapt could increase risk, drive a modification of our operations that might be time-consuming or expensive, or possibly impact pricing on certain items, which could impact our business. Uncertainty remains regarding the continued impact on our direct imports, indirect imports, vendor and competitor pricing, consumer demand, tariff pass-throughs, and reciprocal or retaliatory tariffs.

Operating Results as a Percentage of Net Sales

The following table sets forth our consolidated operating results as a percentage of net sales:

	Thirteen We	eeks Ended	Thirty-Nine V	Veeks Ended
	November 1, 2025	November 2, 2024	November 1, 2025	November 2, 2024
Net sales	100.0 %	100.0 %	100.0 %	100.0 %
Cost of sales, including buying and occupancy costs	67.4	68.4	69.0	69.3
Selling, general and administrative expenses	20.1	19.5	19.7	19.5
Interest (income) expense, net	(0.2)	(0.3)	(0.2)	(0.3)
Income before income taxes*	12.7 %	12.3 %	11.5 %	11.5 %

^{*} Figures may not foot due to rounding.

Net Sales

Net sales for the quarter ended November 1, 2025 totaled \$15.1 billion, a 7% increase versus third quarter fiscal 2025 net sales of \$14.1 billion. This increase reflects a 5% increase in comp sales, a 2% increase from non-comp sales and a neutral impact from foreign currency. Net sales from our e-commerce sites combined amounted to approximately 2% of total sales for each of the third quarters of fiscal 2026 and fiscal 2025.

Net sales for the nine months ended November 1, 2025 totaled \$42.6 billion, a 7% increase versus the first nine months of fiscal 2025 net sales of \$40 billion. This increase reflects a 4% increase in comp sales, a 2% increase from non-comp sales and a 1% positive impact from foreign currency. Net sales from our e-commerce sites combined amounted to approximately 2% of total sales for each of the first nine months of fiscal 2026 and fiscal 2025.

Comp sales increased 5% and 3% for the third quarters of fiscal 2026 and fiscal 2025, respectively. Comp sales increased 4% and 3% for the first nine months of fiscal 2026 and fiscal 2025, respectively. Both apparel comp sales growth (as defined below) and home comp sales growth (as defined below) performed in line with comp sales growth for both the third quarter and first nine months of fiscal 2026. Comp sales for the third quarter of fiscal 2026 were driven by a higher average basket and an increase in customer transactions. Comp sales for the first nine months of fiscal 2026 were primarily driven by an increase in customer transactions.

As of November 1, 2025, our store count increased approximately 3% and selling square footage increased approximately 2% compared to the end of the third quarter last year.

Definition of Comparable Sales

We define comparable sales, or comp sales, to be sales of stores and e-commerce sites that have been in operation for all or a portion of two consecutive fiscal years, or, in other words, stores or e-commerce sites that are starting their third fiscal year of operation. In any given fiscal year, we calculate comp sales on a 52-week basis by comparing the current and prior year weekly periods that are most closely aligned. Relocated stores and stores that have changed in size are generally classified in the same way as the original store, and we believe that the impact of these stores on the consolidated comp sales percentage is immaterial. Starting in fiscal 2026, sales from e-commerce sites are included in comp sales, and the impact of such sales on the consolidated comp sales percentage is immaterial.

Sales excluded from comp sales ("non-comp sales") consist of sales from:

- New stores or e-commerce sites stores or sites that have not yet met the comp sales criteria, which represents a substantial majority of non-comp sales
- Stores or e-commerce sites that are closed permanently or for an extended period of time

We determine which stores and e-commerce sites are included in the comp sales calculation at the beginning of a fiscal year, and the classification remains constant throughout that year unless a store or e-commerce site is closed permanently or for an extended period during that fiscal year.

Comp sales of our foreign segments are calculated on a constant currency basis. We define constant currency basis as translating the current year's results using the prior year's exchange rates. This removes the effect of changes in currency exchange rates, which we believe is a more appropriate measure of performance.

Comp sales may be referred to as "same store" sales by other retail companies. The method for calculating comp sales varies across the retail industry; therefore, our measure of comp sales may not be comparable to that of other retail companies. Comparable sales for a category such as home or apparel include sales from merchandise within such category combined across all divisions that fall within the Company's definition of comparable sales for such period.

We define customer transactions to be the number of transactions in stores or online included in the comp sales calculation. We define average ticket to be the average retail price of the units sold. We define average basket to be the average dollar value of transactions.

Impact of Foreign Currency Exchange Rates

Our operating results are affected by foreign currency exchange rates as a result of changes in the value of the U.S. dollar or a division's local currency in relation to other currencies. We specifically refer to "foreign currency" as the impact of translational foreign currency exchange and mark-to-market of inventory derivatives, as described in detail below. This does not include the impact foreign currency exchange rates can have on various transactions that are denominated in a currency other than an operating division's local currency, which is referred to as "transactional foreign exchange," and also described below.

Translation Foreign Exchange

In our Consolidated Financial Statements, we translate the operations of TJX Canada and TJX International from local currencies into U.S. dollars using currency rates in effect at different points in time. Significant changes in foreign exchange rates between comparable prior periods can result in meaningful variations in assets, liabilities, net sales, net income and earnings per share as well as the net sales and operating results of these segments. Currency translation generally does not affect operating margins, or affects them only slightly, as sales and expenses of the foreign operations are translated at approximately the same rates within a given period.

Mark-to-Market Inventory Derivatives

We routinely enter into inventory-related hedging instruments to mitigate the impact on earnings of changes in foreign currency exchange rates on merchandise purchases denominated in currencies other than the local currencies of our divisions, principally TJX Canada and TJX International. As we have not elected hedge accounting for these instruments, as defined by U.S. generally accepted accounting principles ("GAAP"), we record a mark-to-market gain or loss on the derivative instruments in our results of operations at the end of each reporting period. In subsequent periods, the income statement impact of the mark-to-market adjustment is effectively offset when the inventory being hedged is paid for. While these effects occur every reporting period, they are of much greater magnitude when there are sudden and significant changes in currency exchange rates during a short period of time. The mark-to-market adjustment on these derivatives does not affect net sales, but it does affect the cost of sales, operating margins and earnings we report.

Transactional Foreign Exchange

When discussing the impact on our results of the effect of foreign currency exchange rates on certain transactions, we refer to it as "transactional foreign exchange". This primarily includes the impact that foreign currency exchange rates may have on the year-over-year comparison of merchandise margin as well as "foreign currency gains and losses" on transactions that are denominated in a currency other than the operating division's local currency. These two items can impact segment margin comparison of our foreign divisions and we have highlighted them when they are meaningful to understanding operating trends.

Cost of Sales, Including Buying and Occupancy Costs

Cost of sales, including buying and occupancy costs, as a percentage of net sales was 67.4% for the third quarter of fiscal 2026, a decrease of 1.0 percentage points compared to 68.4% for the third quarter of fiscal 2025. The decrease in the cost of sales ratio, including buying and occupancy costs, for the third quarter of fiscal 2026 was attributable to favorable merchandise margin, lower supply chain costs as a result of a higher average ticket and expense leverage on higher comp sales. Merchandise margin reflects lower freight costs, favorable markon and lower shrink accrual rates in the current year.

Cost of sales, including buying and occupancy costs, as a percentage of net sales was 69.0% for the first nine months of fiscal 2026, a decrease of 0.3 percentage points compared to 69.3% for the first nine months of fiscal 2025. The decrease in the cost of sales ratio, including buying and occupancy costs, for the first nine months of fiscal 2026 was due to favorable merchandise margin, which reflects lower shrink accrual rates in the current year.

Selling, General and Administrative Expenses

SG&A expenses, as a percentage of net sales, was 20.1% for the third quarter of fiscal 2026, an increase of 0.6 percentage points compared to 19.5% for the third quarter of fiscal 2025. The increase in the SG&A ratio for the third quarter of fiscal 2026 was due to incremental store wage and payroll costs, a contribution to our U.S. charitable foundation and higher incentive compensation costs.

SG&A expenses, as a percentage of net sales, was 19.7% for the first nine months of fiscal 2026, an increase of 0.2 percentage points compared to 19.5% for the first nine months of fiscal 2025. The increase in the SG&A ratio for the first nine months of fiscal 2026 was due to incremental store wage and payroll costs and contributions to our charitable foundations.

Interest (Income) Expense, net

The components of interest (income) expense, net are summarized below:

	November 1, 2025 November 2, 2024 November 2, 2024 \$ 20 \$ 20 \$ 10 — (47) (63)			Thirty-Nine Wo	eeks Ended		
In millions		,	N	,	No	ovember 1, 2025	November 2, 2024
Interest expense	\$	20	\$	20	\$	59 \$	59
Capitalized interest		(1)		_		(4)	(0)
Interest (income)		(47)		(63)		(140)	(198)
Interest (income) expense, net	\$	(28)	\$	(43)	\$	(85) \$	(139)

Interest (income) expense, net decreased for both the third quarter and first nine months of fiscal 2026 compared to the same periods in fiscal 2025, primarily due to a decrease in interest income driven by a decrease in prevailing rates and a lower average cash balance.

Provision for Income Taxes

On July 4, 2025, the One Big Beautiful Bill Act was signed into law, making permanent certain expiring provisions of the Tax Cuts and Jobs Act, including 100% accelerated depreciation deductions on qualified property and immediate expensing of domestic research and development costs, as well as modifying some of the international tax rules. These changes have not had a material impact for either the third quarter or the first nine months of fiscal 2026 and are not expected to have a material impact on the Company's income tax provision. We expect these changes to reduce the Company's current year U.S. cash tax obligations.

A number of countries have enacted legislation to implement the Organization for Economic Cooperation and Development's 15% global minimum tax regime (Pillar Two) with effect from January 1, 2024. These changes did not have a material impact on our effective tax rate, results of operations or financial position for the third quarter of fiscal 2026 and are not expected to have a significant impact to the full fiscal year. We continue to evaluate the impacts of proposed and enacted legislation for the jurisdictions in which TJX operates.

The effective income tax rate was 24.7% for the third quarter of fiscal 2026 and 25.3% for the third quarter of fiscal 2025. The effective income tax rate was 24.2% for the first nine months of fiscal 2026 and 24.6% for the first nine months of fiscal 2025. The decrease in the effective tax rate for both the third quarter and first nine months of fiscal 2026 was primarily due to the increase in an excess tax benefit from share-based compensation and a benefit from the acquisition of federal tax credits, partially offset by incremental taxes related to international operations.

Net Income and Diluted Earnings Per Share

Net income was \$1.4 billion, or \$1.28 per diluted share, and \$1.3 billion, or \$1.14 per diluted share, for the third quarter of fiscal 2026 and fiscal 2025, respectively. Foreign currency had a \$0.01 positive impact on diluted earnings per share for both the third quarter of fiscal 2026 and the third quarter of fiscal 2025.

Net income was \$3.7 billion, or \$3.30 per diluted share, and \$3.5 billion, or \$3.03 per diluted share, for the first nine months of fiscal 2026 and fiscal 2025, respectively. Foreign currency had a \$0.01 positive impact on diluted earnings per share for both the first nine months of fiscal 2026 and the first nine months of fiscal 2025.

Segment Information

We operate four segments. In the United States, our Marmaxx segment operates TJ Maxx, Marshalls, tjmaxx.com and marshalls.com and our HomeGoods segment operates HomeGoods and Homesense. Our TJX Canada segment operates Winners, HomeSense and Marshalls in Canada, and our TJX International segment operates TK Maxx, Homesense, tkmaxx.com, tkmaxx.de, and tkmaxx.at in Europe and TK Maxx in Australia. In addition to our four segments, Sierra operates retail stores and sierra.com in the U.S. The results of Sierra are included in the Marmaxx segment.

We evaluate the performance of our segments based on "segment profit or loss," which we define as pre-tax income or loss before general corporate expense and interest (income) expense, net, and certain separately disclosed unusual or infrequent items. "Segment profit or loss," as we define the term, may not be comparable to similarly titled measures used by other companies. The terms "segment margin" or "segment profit margin" are used to describe segment profit or loss as a percentage of net sales. These measures of performance should not be considered an alternative to net income or cash flows from operating activities, as an indicator of our performance or as a measure of liquidity.

Presented below is selected financial information related to our segments.

U.S. SEGMENTS

Marmaxx

		Thirteen Weeks Ended				Thirty-Nine Weeks Ended				
U.S. dollars in millions	No	vember 1, 2025	Nov	vember 2, 2024	No	ovember 1, 2025	No	ovember 2, 2024		
Net sales	\$	9,037	\$	8,438	\$	25,930	\$	24,633		
Segment profit	\$	1,350	\$	1,207	\$	3,711	\$	3,495		
Segment profit margin		14.9 %		14.3 %	6 14.3 %			14.2 %		
Comp sales		6 %		2 %		4 %		3 %		
Stores in operation at end of period:										
TJ Maxx						1,346		1,331		
Marshalls						1,248		1,219		
Sierra						141		109		
Total						2,735		2,659		
Selling square footage at end of period (in millions):										
TJ Maxx						30		30		
Marshalls						27		27		
Sierra						2		1		
Total						59		58		

Net Sales

Net sales for Marmaxx were \$9 billion for the third quarter of fiscal 2026, an increase of 7% compared to \$8.4 billion for the third quarter of fiscal 2025. This increase in the third quarter reflects a 6% increase from comp sales and a 1% increase from non-comp sales.

Net sales for Marmaxx were \$25.9 billion for the first nine months of fiscal 2026, an increase of 5% compared to \$24.6 billion for the first nine months of fiscal 2025. This increase in the first nine months reflects a 4% increase from comp sales and a 1% increase from non-comp sales.

For both the third quarter and first nine months of fiscal 2026, the increase in comp sales was driven by a higher average basket and an increase in customer transactions. While both Marmaxx apparel and home comp sales growth were positive, apparel comp sales growth outperformed home comp sales growth for the third quarter of fiscal 2026. Both Marmaxx apparel and home comp sales growth performed in line with the overall comp sales increase for the first nine months of fiscal 2026. Geographically, comp sales growth was strongest in the South and Midwest regions for the third quarter of fiscal 2026 and in the South region for the first nine months of fiscal 2026.

Segment Profit Margin

Segment profit margin increased to 14.9% for the third quarter of fiscal 2026 compared to 14.3% for the same period last year. The increase in segment profit margin for the third quarter of fiscal 2026 was primarily driven by favorable merchandise margin and expense leverage on higher comp sales, partially offset by incremental store wage and payroll costs. Merchandise margin reflects lower freight costs and lower shrink accrual rates in the current year.

Segment profit margin increased to 14.3% for the first nine months of fiscal 2026 compared to 14.2% for the first nine months last year. The increase in segment profit margin for the first nine months of fiscal 2026 was primarily driven by favorable merchandise margin partially offset by incremental store wage and payroll costs and higher incentive compensation costs. Merchandise margin reflects lower shrink accrual rates in the current year.

Our Marmaxx e-commerce sites, tjmaxx.com and marshalls.com, together with sierra.com, represented approximately 2% of Marmaxx's net sales for both the third quarter and first nine months of fiscal 2026 and fiscal 2025, and did not have a significant impact on year-over-year segment margin comparisons.

HomeGoods

Net Sales

Net sales for HomeGoods were \$2.5 billion for the third quarter of fiscal 2026, an increase of 8%, compared to \$2.4 billion for the third quarter of fiscal 2025. This increase in the third quarter reflects a 5% increase from comp sales and a 3% increase from non-comp sales.

Net sales for HomeGoods were \$7.1 billion for the first nine months of fiscal 2026, an increase of 8%, compared to \$6.5 billion for the first nine months of fiscal 2025. This increase in the first nine months reflects a 5% increase from comp sales and a 3% increase from non-comp sales.

The increase in comp sales was driven by a higher average basket for the third quarter of fiscal 2026 and by an increase in customer transactions and a higher average basket for the first nine months of fiscal 2026. Geographically, comp sales growth was strongest in the South and Midwest regions for the third quarter of fiscal 2026 and in the South and West regions for the first nine months of fiscal 2026.

Segment Profit Margin

Segment profit margin increased to 13.5% for the third quarter of fiscal 2026 compared to 12.3% for the same period last year. This increase in segment profit margin for the third quarter of fiscal 2026 was driven by favorable merchandise margin and lower supply chain and store costs as a result of a higher average ticket. Merchandise margin reflects lower freight costs and favorable markon partially offset by higher markdowns.

Segment profit margin increased to 11.3% for the first nine months of fiscal 2026 compared to 10.4% for the same period last year. This increase in segment profit margin for the first nine months of fiscal 2026 was driven by favorable merchandise margin and expense leverage on higher comp sales. Merchandise margin reflects lower markdowns and lower freight costs.

Net Sales

Net sales for TJX Canada were \$1.5 billion for the third quarter of fiscal 2026, an increase of 8%, compared to \$1.4 billion for the third quarter of fiscal 2025. This increase in the third quarter reflects a 8% increase in comp sales, a 2% increase in noncomp sales, partially offset by a negative foreign currency impact of 2%.

Net sales for TJX Canada were \$4 billion for the first nine months of fiscal 2026, an increase of 7%, compared to \$3.7 billion for the first nine months of fiscal 2025. This increase in the first nine months reflects a 7% increase in comp sales, a 3% increase in non-comp sales, partially offset by a negative foreign currency impact of 3%.

The increase in comp sales for both the third quarter and first nine months of fiscal 2026 was driven by an increase in customer transactions.

Segment Profit Margin

Segment profit margin decreased to 14.9% for the third quarter of fiscal 2026 compared to 15.1% for the same period last year. This decrease for the third quarter of fiscal 2026 was primarily driven by capitalized inventory costs, higher incentive compensation costs and incremental store wage and payroll costs. These costs were partially offset by expense leverage on higher comp sales and higher merchandise margin. Within merchandise margin, lower markon, driven by the negative impact of transactional foreign exchange on the cost of merchandise, was more than offset by lower freight costs.

Segment profit margin decreased to 14.1% for the first nine months of fiscal 2026 compared to 14.3% for the same period last year. This decrease for the first nine months of fiscal 2026 was primarily driven by lower merchandise margin, capitalized inventory costs and incremental store wage and payroll costs. Merchandise margin reflects lower markon which includes the negative impact of transactional foreign exchange on the cost of merchandise partially offset by lower freight costs. These costs were partially offset by expense leverage on higher comp sales.

For both periods presented, capitalized inventory costs reflect a greater portion of our buying and distribution costs being expensed in the current year compared to the respective periods in the prior year.

Net Sales

Net sales for TJX International were \$2 billion for the third quarter of fiscal 2026, an increase of 9%, compared to \$1.9 billion for the third quarter of fiscal 2025. This increase in the third quarter reflects a positive foreign currency impact of 4%, a 3% increase in comp sales and a 2% increase in non-comp sales.

Net sales for TJX International were \$5.6 billion for the first nine months of fiscal 2026, an increase of 10%, compared to \$5.1 billion for the first nine months of fiscal 2025. This increase in the first nine months reflects a 4% increase in comp sales, a positive foreign currency impact of 4% and a 2% increase in non-comp sales.

The increase in comp sales for both the third quarter and first nine months of fiscal 2026 was driven by an increase in customer transactions.

E-commerce sales represented approximately 3% of TJX International's net sales for both the third quarter and first nine months of fiscal 2026 and fiscal 2025.

Segment Profit Margin

Segment profit margin increased to 9.2% for the third quarter of fiscal 2026 compared to 7.3% for the same period last year. This increase for the third quarter of fiscal 2026 was primarily due to higher merchandise margin and the favorable impact of transactional foreign exchange. Merchandise margin reflects higher markon and lower markdowns.

Segment profit margin increased to 6.4% for the first nine months of fiscal 2026 compared to 5.3% for the same period last year. This increase for the first nine months of fiscal 2026 was primarily due to higher merchandise margin, lower administrative costs and favorable store occupancy costs. Merchandise margin reflects higher markon and lower markdowns, partially offset by higher freight costs.

GENERAL CORPORATE EXPENSE

	Thirteen Weeks Ended			Thirty-Nine Weeks Ended			
	No		November 2,	No			
In millions		2025	2024		2025	202	24
General corporate expense	\$	216	\$ 150	\$	613	\$	523

General corporate expense for segment reporting purposes represents those costs not specifically related to the operations of our segments. General corporate expenses are primarily included in SG&A expenses. The mark-to-market adjustment of our fuel and inventory hedges is included in cost of sales, including buying and occupancy costs.

The increase in general corporate expense for both the third quarter of fiscal 2026 and first nine months of fiscal 2026 was primarily driven by higher other administrative costs, contributions to our charitable foundations and incentive compensation costs.

ANALYSIS OF FINANCIAL CONDITION

Liquidity and Capital Resources

Our liquidity requirements have traditionally been funded through cash generated from operations, supplemented, as needed, by short-term bank borrowings and the issuance of commercial paper. As of November 1, 2025, there were no short-term bank borrowings or commercial paper outstanding. We believe our existing cash and cash equivalents, internally generated funds and our credit facilities, under which facilities we have \$1.5 billion available as of the period ended November 1, 2025, are adequate to meet our operating needs for the foreseeable future. Our 2.25% ten-year Notes due September 2026 will mature during our third quarter of fiscal 2027 and are included within our current maturities of long-term debt. For more information, see Note I—Long-Term Debt and Credit Lines of Notes to Consolidated Financial Statements.

As of November 1, 2025, we held \$4.6 billion in cash. Approximately \$1.6 billion of our cash was held by our foreign subsidiaries with \$1 billion held in countries where we intend to indefinitely reinvest any undistributed earnings. We have provided for all applicable state and foreign withholding taxes on all undistributed earnings of our foreign subsidiaries in Canada, Puerto Rico, Italy, India, Hong Kong and Vietnam through November 1, 2025. If we repatriate cash from such subsidiaries, we should not incur additional tax expense and our cash would be reduced by the amount of withholding taxes paid.

We monitor debt financing markets on an ongoing basis and from time to time may incur additional long-term indebtedness depending on prevailing market conditions, liquidity requirements, existing economic conditions and other factors. Periodically, we have used, and in the future we may again use, operating cash flow and cash on hand to repay portions of our indebtedness, depending on prevailing market conditions, liquidity requirements, existing economic conditions, contractual restrictions and other factors. As such, we may, from time to time, seek to retire, redeem, prepay or purchase our outstanding debt through redemptions, cash purchases, prepayments, refinancings and/or exchanges, in open market purchases, privately negotiated transactions, by tender offer or otherwise.

Operating Activities

Operating activities resulted in net cash inflows of \$3.7 billion for the nine months ended November 1, 2025 and \$3.4 billion for the nine months ended November 2, 2024.

Operating cash flows increased \$305 million compared to fiscal 2025 primarily due to an increase in net income, timing of income taxes payable and an increase in accrued expenses reflecting higher incentive compensation costs. This was partially offset by an increase in merchandise inventories.

Investing Activities

Investing activities resulted in net cash outflows of \$1.5 billion for the nine months ended November 1, 2025 and \$1.6 billion for the nine months ended November 2, 2024. The cash outflows for both periods were driven by capital expenditures.

Capital expenditures in the first nine months of fiscal 2026 primarily reflected store improvements and renovations, investments in our new stores, as well as investments in our distribution centers and offices, including information technology. We anticipate that capital spending for the full fiscal year 2026 will be approximately \$2.1 billion to \$2.2 billion.

We plan to fund these expenditures with our existing cash balances and through internally generated funds.

Financing Activities

Financing activities resulted in net cash outflows of \$3 billion for the first nine months of fiscal 2026 and \$2.7 billion for the first nine months of fiscal 2025. The cash outflows for both periods were primarily driven by equity repurchases and dividend payments.

Equity

Under our stock repurchase programs, we paid \$1.7 billion to repurchase and retire 13.4 million shares of our stock in the first nine months of fiscal 2026 and we paid \$1.7 billion to repurchase and retire 15.4 million shares of our stock in the first nine months of fiscal 2025.

During the second quarter of fiscal 2026, the Company completed stock repurchases representing all of the \$1.1 billion that remained as of February 1, 2025 from the previously announced stock repurchase program. As of November 1, 2025, approximately \$1.9 billion remained available under our existing stock repurchase programs. We currently plan to repurchase approximately \$2.5 billion of stock under our stock repurchase programs in fiscal 2026. For further information regarding equity repurchases, see Note D – Capital Stock and Earnings Per Share of Notes to Consolidated Financial Statements.

Dividends

We declared quarterly dividends on our common stock of \$0.425 per share for each of the quarters in the first nine months of fiscal 2026 and \$0.375 per share for each of the quarters in the first nine months of fiscal 2025. Cash payments for dividends on our common stock totaled \$1.4 billion for the first nine months of fiscal 2026 and \$1.2 billion for the first nine months of fiscal 2025.

CRITICAL ACCOUNTING ESTIMATES

There have been no material changes to the critical accounting estimates as discussed in TJX's Annual Report on Form 10-K for the fiscal year ended February 1, 2025.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

For a discussion of accounting standards, see Note A—Basis of Presentation and Summary of Significant Accounting Policies of Notes to Consolidated Financial Statements included in TJX's Annual Report on Form 10-K for the fiscal year ended February 1, 2025 and Note A—Basis of Presentation and Summary of Significant Accounting Policies of Notes to Consolidated Financial Statements in this Quarterly Report on Form 10-Q.

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains "forward-looking statements". These forward-looking statements generally can be identified by the use of words such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "plan," "potential," "seek," "should," "will," "would," or any variations of these words or other words with similar meanings. These forward-looking statements address various matters that we intend, expect, or believe may occur in the future, including, among others, statements regarding the Company's anticipated operating and financial performance, business plans and prospects, investments, anticipated dividends and share repurchases, the impact of tariff policies, and plans with respect to long-term indebtedness. Each forward-looking statement is inherently subject to risks, uncertainties and potentially inaccurate assumptions that could cause actual results to differ materially from those expressed or implied by such statement. We cannot guarantee that the results and other expectations expressed, anticipated or implied in any forward-looking statement will be realized. Applicable risks and uncertainties include, among others: execution of buying strategy and inventory management; customer trends and preferences; competition; various marketing efforts; operational and business expansion; management of large size and scale; merchandise sourcing and transport; international trade and tariff policies; data security and maintenance and development of information technology systems; labor costs and workforce challenges; personnel recruitment, training and retention; corporate and retail banner reputation; evolving corporate governance and public disclosure regulations and expectations with respect to environmental, social and governance matters; expanding international operations; fluctuations in quarterly and annual operating results and market expectations; inventory or asset loss; cash flow; mergers, acquisitions, or business investments and divestitures, closings or business consolidations; real estate activities; economic conditions and consumer spending; market instability; severe weather, serious disruptions or catastrophic events; disproportionate impact of disruptions during this fiscal year; commodity availability and pricing; fluctuations in currency exchange rates; compliance with laws, regulations and orders and changes in laws, regulations and applicable accounting standards; outcomes of litigation, legal proceedings and other legal or regulatory matters; quality, safety and other issues with our merchandise; tax matters; and other factors that may be described in our filings with the Securities and Exchange Commission (the "SEC"), including our most recent Annual Report on Form 10-K filed with the SEC. We caution investors, potential investors and others not to place considerable reliance on the forward-looking statements contained in this Form 10-Q. You are encouraged to read any further disclosures we may make in our future reports to the SEC, available at www.sec.gov, on our website, or otherwise. The forward-looking statements in this report speak only as of the date of this Form 10-Q, and we undertake no obligation to update or revise any of these statements, even if experience or future changes make it clear that any projected results expressed or implied in such statements will not be realized. Our business is subject to substantial risks and uncertainties, including those referenced above. Investors, potential investors, and others should give careful consideration to these risks and uncertainties.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There have been no material changes in our primary risk exposures or management of market risks from those disclosed in our Annual Report on Form 10-K for the fiscal year ended February 1, 2025.

Item 4. Controls and Procedures

We have carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of November 1, 2025 pursuant to Rules 13a-15(b) and 15d-15(b) of the Securities Exchange Act of 1934, as amended (the "Act"). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at the reasonable assurance level in ensuring that information required to be disclosed by us in the reports that we file or submit under the Act is (i) recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms; and (ii) accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosures. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives, and management necessarily applies its judgment in evaluating the cost-benefit relationship of implementing controls and procedures.

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Act) during the fiscal quarter ended November 1, 2025 identified in connection with the evaluation by our management, including our Chief Executive Officer and Chief Financial Officer, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

See Legal Contingencies in <u>Note K—Contingent Obligations</u>, <u>Contingencies</u>, <u>and Commitments</u> of Notes to Consolidated Financial Statements for information on legal proceedings.

Item 1A. Risk Factors

There have been no material changes to the risk factors disclosed in the "Risk Factors" section of our Annual Report on Form 10-K for the year ended February 1, 2025, as filed with the Securities Exchange Commission on April 2, 2025.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

INFORMATION ON SHARE REPURCHASES

The number of shares of common stock repurchased by TJX during the third quarter of fiscal 2026 and the average price paid per share are as follows:

	Total Number of Shares Repurchased ^(a)	Average Price Paid Per Share ^(b)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ^(a)	Approximate Dollar Value of Shares that May Yet be Purchased Under the Plans or Programs ^(c)
August 3, 2025 through August 30, 2025	704,571	\$ 133.56	704,571	\$ 2,353,047,151
August 31, 2025 through October 4, 2025	1,899,552	\$ 140.61	1,899,552	\$ 2,085,947,668
October 5, 2025 through November 1, 2025	1,629,285	\$ 142.64	1,629,285	\$ 1,853,547,481
Total	4,233,408		4,233,408	

⁽a) Consists of shares repurchased under publicly announced stock repurchase programs.

Item 5. Other Information

During the fiscal quarter ended November 1, 2025, none of our directors or officers adopted, materially modified, or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as those terms are defined in Item 408(a) of Regulation S-K.

Item 6. Exhibits
